Hi there,  
Thanks for purchasing from **Unio** | Creative Solutions.

### ***About The File:***

Unio presents "Gutenberg - Font Family".

A sincere tribute to Johannes Gutenberg who introduced printing to Europe with his mechanical movable type printing technique. Certainly one of the most important invention of the second millennium.

Gutenberg is a sans serif font which presents sketchy edges with irregular scheme imperfections to simulate the transferred ink.

The commercial version of this font family includes 296 glyphs and the multi-language support, it also comprises regular rough and regular clean styles with corresponding true italics.

Designed with a modern style to match any graphic requirements.

### ***Specifications:***
